Chapter 1 : Star Trek Discovery Desperate Hours

David Mack is the award-winning and New York Times bestselling author of more than thirty novels of science fiction, fantasy, and adventure, including the Star Trek Destiny and Cold Equations trilogies. His writing credits span several media, including television (for episodes of Star Trek: Deep Space Nine), film, short fiction, and comic books. He resides in New York City. Star Trek: Discovery is an American television series created for CBS All Access by Bryan Fuller and Alex Kurtzman. It is the first series developed specifically for that service, and the first Star Trek series since Star Trek: Enterprise concluded in 2005. Set roughly a decade before the events of the original Star Trek series and separate from the timeline of the concurrently produced feature film Star Trek Beyond, Mack has written a fine opening entry in the ongoing Discovery novel series. The plot itself is standard Star Trek: alien menace to a Federation planet requiring the intervention of a starship, the USS Shenzhou. The canon of the original Star Trek will be 100 percent honored in the second season of Star Trek: Discovery. A new behind-the-scenes trailer reveals new designs for the classic color-coded Star Trek: Discovery's mid-season finale "Into the Forest I Go" managed to deliver substantial character moments – as seems to be the show's forte – all amid a fast-paced episode that Star Trek: Discovery season 1 is over. The long, painful wait for season 2 starts here, as does the campaign for somehow, some way, bringing back Captain Lorca. To help ease the wait for your next Star Trek publication and releases in 2017, including all prose fiction, comic books, non-fiction, and foreign language books, video games, music, video, toys, board games, and other collectables and curiosities.
